The bus has returned from Henderson's Alignment, and the bus crew are actively back on it. The bus project is where David focused most of his time and efforts towards.

God created this young man with a purpose to bring Him glory through his gifts, talents, and passions. David was quite mature when he joined WT, yet humble enough to learn and grow through the mentors. His knowledge of mechanics gravitated him toward the bus project. It is no wonder mechanics is the profession David has chosen. The youngers naturally draw to their older peers, and David likes to share his knowledge with them, more importantly, the example of his walk with the Lord.

"Walking Tall really gave me a boost in life by giving me men that wanted to pour into my life and wanted me to succeed. They grew me in the Lord and gave me skills I could take into my career. As I was a part of walking tall and other young men started coming, the Lord started to grow my patience and perseverance. I learned you could not judge a book by its cover. Some of the young men could be a challenge to deal with at first. But over time, I saw them grow in humility and a desire to learn. Seeing them transform into dependable

and hardworking team members has fueled my desire to mentor others and have the joy of watching God build them into men of honor and responsibility."

David

"Blessed is the one who perseveres under trial because, having stood the test, that person will receive the crown of life that the Lord has promised to those who love Him."

James 12:4

*If you haven't ever supported Walking Tall, please consider a one time donation or regular monthly donation to support and continue offering many skills to these young men. Thank you so much!
Walking Tall: PO Box 3789 Central Point, OR 97502 or walkingtallso.org for online donations.*
