Expansion of Hope

Dominic has mentioned that he has completed 21 rotations around the sun. He comes from a large family with five brothers and two sisters, and he is the middle child. Although he admits they have disagreements, he feels very fortunate and grateful for his family, especially when he sees many of his friends come from broken families. Dominic thinks it's pretty sad, making him appreciate his family even more.

"Here at Walking Tall, I have found a community of supportive people. If I wasn't here, I would probably be either trying to plan my next steps for school or playing video games. I have had a difficult journey with my faith, but I am actively working on improving it. Thankfully, I have made several new friends here at Walking Tall."

Dominic explains.

He believes that today's generation is often too reliant on technology and hopes to learn practical skills from Walking Tall. He's heard a growing demand for trade workers due to the digital era, which has caused more people to pursue careers in tech and fewer in the manual trades. Dominic is currently working for WT Redwood Products. He said, "I tend to procrastinate a lot, and staying on a schedule is what I need to do. His ideal future would be to go into music, but he believes it would be too hard to make a living at it, so he's on the path of mechanical engineering.

Dominic is always willing to help around the campus and enjoys spending time with the younger guys at WT.

Having the eyes of your hearts enlightened, that you may know what is the hope to which he has called you, what are the riches of his glorious inheritance in the saints,.

Ephesians 1:18

Thank you for your prayers and support

*If you haven't ever supported Walking Tall, please consider a one time donation or regular monthly donation to support and continue offering many skills to these young men. Thank you so much!
Walking Tall: PO Box 3789 Central Point, OR 97502 or walkingtallso.org for online donations.*
