## Walking Tall Grand Prix Race

The day began with young men receiving wood blocks to craft into race cars, with the help of mentors and dads. They eagerly designed one-of-a-kind vehicles, paying attention to details such as design, technique, color, and naming their cars for the upcoming Grand Prix Race.

After finishing their cars, everyone gathered for a meal and chatted before the race started.

Right before the race, they had the opportunity to have fun making up stories for the camera about their nerves, excitement, and how their pit crews had been working hard to get the engines running top-notch.

Thankfully, it was a fair race, and no one received a penalty! We saw great sportsmanship, and even though not everyone crossed the finish line first, the young men's transition from pride to humility created a positive atmosphere for everyone, offering a meaningful opportunity to show faithfulness in all the challenges God gives us.

I have fought the good fight, I have finished the race, I have kept the faith.
