FAITH-BASED MENTORSHIP

HANDS-ON EXPERIENCES FOR JOB READINESS

AUTOMOTIVE WOODWORKING FABRICATING & WELDING SMALL ENGINE COMPUTER DESIGN CONSTRUCTION AND MORE

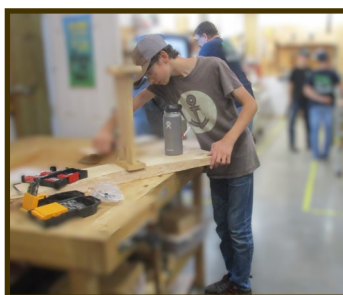

A Unique Power

Nathan is grateful to come from a family of ten and has a supportive group of friends. He said, *"I'm not as shy now as I was when I first joined Walking Tall."* Nathan enjoys community events, choir, and Walking Tall. He worked in the wood shop for three years. This is his first year in the Computer-Aided Design (CAD) department, where his knowledgeable mentor Mark has boosted his confidence.

Working with wood has improved Nathan's understanding of fractions, which fractions is something he previously disliked. He states, *"Walking Tall has helped me with geometry and taught me about tools. Before this, I had tools at home that I never used."* Through his woodworking skills, he crafted an intricate wooden dragon that he is very proud of, which took a significant amount of time.

Digging into the Bible has really boosted Nathan's faith. He's excited about finding ways to communicate more easily and connect with others. *"I know my way of expressing myself is a bit different, which can make things awkward. I've been making an effort to get to know a young man in my department and learn about his experiences at Walking Tall. It's a bit of a challenge, but I'm really looking forward to making better connections!"*

Now may the God of hope fill you with all joy and peace in believing, that you may abound in hope by the power of the Holy Spirit.

Romans 15:13

Thank you for your Prayers and Support!

*If you would like to partner with Walking Tall, please consider a one time donation or regular monthly donations to support and continue offering many skills to these young men. Thank you so much!
Walking Tall: PO Box 3789 Central Point, OR 97502 or walkingtallso.org for online donations.*
